

NOTICE!

Please read before you proceed.

Following this notice is the current Long Lake Township Land Division Ordinance and Land Division Application.

It is highly recommended by the Long Lake Township land division committee that prior to applying to the road commission for sight distance approval and prior to hiring a surveyor to survey a proposed division you contact the Assessor or the Zoning Administrator at 231-946-2249 to schedule a time to meet to informally review the proposed land division(s) or property transfer(s).

At this informal review the amount of land divisions that are available to a parcel will be determined; A preliminary review of the proposed land division(s) will be made to determine if the proposal could meet the township zoning and land division ordinance requirements; And an explanation to the applicant will be given of how to proceed with a land division request.

The committee meets the first Thursday of each month to consider any applications for land divisions and/or property transfers that have been submitted to the Township the prior month.

Completed applications with all required attachments must be submitted to the Township by the Friday prior to the scheduled meeting to be considered at that land division meeting.
